

Complexity Simplified. Representing Manufacturers of Complex Products in a Complex Distribution Channel.

## Who We Are

No two applications are the same. In a rapidly changing and technically advanced industry making the right decision on the right products for your customer's needs is not an easy decision. Questions you may be asking: Do I use IP cameras or analog? What do I do with my existing system? How can I integrate it all? How do I properly prepare for the future? And how much will this cost?

We represent manufacturers that cover nearly every aspect of an electronic security and video surveillance system, and if we do not represent the right product for your needs we'll do our best to tell you where to find it.

Analog Video or IP Networked Video, IP Cameras, Video Analytics, Wireless Video Transmission,

Audio Surveillance, Fiber Optic Transceivers, Perimeter Detection, Racking Consoles, Audio Surveillance or Thermal Imaging....

Founded in 1979, Keith Parker & Associates, Inc. is an award winning firm representing the leading manufacturers in these and other categories. We have always chosen our manufacturers carefully and represent a product portfolio we feel will provide a long term benefit to our firm and our customer partners.

Keith Parker & Associates, Inc. is a full service Manufacturer's Representative firm responsible for marketing and sales support in Illinois and Wisconsin. Product is sold through our channel partners.

## Who We Represent
